

Assorted Ford Electrical Connector Kit 20pc

Popular assortment of electrical connectors to suit Ford. Kit contains 5 types of 2 pin connectors, 3 types of 3 pin connectors, 1 type of 4 pin connector, 2 types of 6 pin connectors and 2 types of 8 pin connectors (male and female). Each connector comes complete with the correct number of non-insulated terminals and weatherproof seals where applicable to create a waterproof seal. Sensors can be used in area of the vehicle. Mainly used in the engine bay to protect circuits and important sensors for the engine management system. Ideal assortment for any automotive electrical engineer working on sensor or harness repairs.

Additional Information

- Comprehensive range of electrical sensor connectors to suit Ford.
- Kit contains: 2-pin ignition plug connectors, 2-pin crankshaft position sensor connectors and 2-pin ICP (injection control pressure) sensor connectors.
- 2-pin fuel tank pressure sensor connectors, 3-pin camshaft position sensor connectors, 2-pin heater and radiator cooling fan connectors, 4-pin fuel injector connectors and 8-pin airflow sensor connectors.
- 3-pin ignition coil connectors, 6-pin accelerator pedal position sensor connector, 8-pin air flow sensor connector and 8-pin fuel tank sending unit connector.
- All sensors come complete with terminals and seals and are available as replacements supplied in blister packs.
