

Assorted Oetiker Dual Hook & Universal CV Boot Clamps

An assorted box of Oetiker OEM quality metal band clamps including 3 sizes of dual hook adjustable ear clamps, suitable for a variety of automotive applications including, air suspension, air intake, fuel line, thermal management, steering, driveshaft, constant velocity joint (CVJ) rubber and thermoplastic boots. The kit also includes 2 different sizes of adjustable ear clamps suitable for use with aftermarket constant velocity joint (CVJ) rubber boots. These feature burr-free edges, reducing the risk of damage to the components being clamped, are manufactured from stainless steel for strength and corrosion resistance.
