

Cable Tie Tensioning Tool

This cable tie gun has been designed to pull nylon cable ties tight and neatly cut off any excess once tensioned, leaving no sharp edges. Ideal for repetitive tasks such as gathering together and tidying electrical cables, or for when access is restricted and to allow for one-handed operation. It also features a tension adjustment wheel with indicator meaning more delicate items such as multicore cables, garden canes, branches or vines are not damaged. Suitable for use on any nylon cable tie between 2.5 and 4.8mm wide.

Additional Information

- Suitable for nylon cable ties from 2.5mm to 4.8mm wide.
- Ideal for repetitive use & one-handed operation.
- Tension adjustment wheel with indicator.
- Automatic cut-off function.
- Heavy duty plastic construction. Weighs 213g.
