

Copper Flashed Nut Slotted Lock M10 x 1.5 x 14mm Hex

A pack of M10 x 1.5 pitch x 14mm Hex copper flashed slotted nuts for use with exhaust manifold studs. Whilst the copper flashing acts as anti-seize coating and helps to eliminate seizure on the manifold studs, the slotted section gives the nut anti-vibration properties and allows it to act as a self-locking nut. It's full metal construction makes it suitable for use on high temperature components.

Additional Information

- Applications include: Chrysler, Mercedes-Benz.
- Equivalent to: OEM 0009903150, N999901010000.
- Thread size: M10, Pitch: 1.5, Hex: 14mm.
