

Assorted 45° Angled Fuel Line Quick Connectors 16pc

A set of 6 different sized angled fuel line quick connectors allowing for tight connections on a range of fuel line inner diameters from 6mm to 14mm. The 45° angle provides easier fixing in tight spaces. Quick connectors are designed for the automotive industry for the transfer of fuel, oil, water cooling systems and air. The self locking connector enables it to be connected & disconnected with ease and speed, with the wide operating temperature range ensures it can cope with the extreme temperatures that could lead to cracking and leaks.
