

Raccord de carburant coudé 11.8mm x 10mm - 3 pcs

A set of 3 angled fuel line quick connectors allowing for tight connections on 10mm fuel lines. The 90° (elbow) angle provides easier fixing in tight spaces. Quick connectors are designed for the automotive industry for the transfer of fuel, oil, water cooling systems and air. The self locking connector enables it to be connected & disconnected with ease and speed, with the wide operating temperature range ensures it can cope with the extreme temperatures that could lead to cracking and leaks. To ease the fitting of the hard plastic fuel pipe to the connectors, use Laser Tools Pipe Connector Insertion Tool, Part No. 6933.

Additional Information

- Raccord de carburant coudé à 90 degrés - Composant du kit de réparation et remplacement des durites et raccord carburant Ref Connect 37011
- Convient pour les durites en Nylon d'un diamètre interne de 10mm et les durites en caoutchouc d'un diamètre interne de 12mm.
- Nylon utilisé: PA12
- Pression maximale de travail: 5 bars
- 3 pcs
