

Assorted Automotive Electric Delphi Weatherproof Kit

An assorted automotive electrical kit with 426 components. All components are available as top up packs. Weatherproof connectors are used to protected cable connections against the elements. To be used on 1.5mm² - 2.5mm² cable. These weatherproof connectors are used on sensors, light bars, head lights, electric windows and most under the bonnet applications. By crimping the green seal onto the non-insulated terminal and cable then clicking the terminal into the housing this then creates the seal. For the perfect crimp our Laser Part no 7248 needs to be used. The ratchet crimp has unique wide stepped jaws which unlike other tools crimps the terminal and seal without crushing the terminal out of shape. Not only does the tool crimp the large lugs around the seal and cable but it crimps the two smaller lugs around the cable to give a tidy professional crimp. Our crimp tool Part no 7248 also comes with a terminal removal tool. Replacement top up packs are available - Part No. 37326 - 1 pin connector kit. Part No. 37327 - 2 pin connector kit. Part No. 37328 - 3 pin connector kit. Part No. 37329 - 4 pin square connector kit. Part No. 37330 - 4 pin connector kit. Part No. 37331 - 6 pin connector kit. Part No. 37332 - Male non insulated terminals. Part No. 37333 - Female non insulated terminals. Part No. 37334 - Green weatherproof seals. Ideal assortment for any automotive electrical engineer working on sensor or harness repairs.

Additional Information

- Professional assorted box of Delphi weatherproof connectors and terminals.
- Kit Contains - 10 x 1 Pin Female and 10 x 1 Pin Male Connectors, 7 x 2 Pin Female and 7 x 2 Pin Male Connectors.
- 5 x 3 Pin Female and 5 x 3 Pin Male Connectors, 4 x 4 Pin Female and 4 x 4 Pin Male Connectors.
- 4 x 4 Pin Square Female and 4 x 4 Pin Square Male Connectors, 3 x 6 Pin Female and 3 x 6 Pin Male Connectors.
- 90 Female Terminals, 90 Male Terminals and 180 Green Weather Proof Seals.
