

Cutting/Compounding Flat Velcro White Pad 1pc

High quality sponge / pad range for the professional user. The foam pads are professionally designed for the restoration of cars painted surfaces and daily maintenance. The whole range is made from a polyester sponge which has the added advantage of an excellent tensile strength and durability. This gives the product a service life which is several times longer than the ordinary sponge. Suggested polishing revolving speed is between 1000-2000 rpm depending on the paint. Cutting / compounding pads are the most aggressive pads. Used with a cutting compound that has a high level of cut or aggressiveness. First step in removing surface defects.
