

## Polishing Traditional Foam Head Orange 1pc

High quality sponge / pad range for the professional user. The foam pads are professionally designed for the restoration of cars painted surfaces and daily maintenance. The whole range is made from a polyester sponge which has the added advantage of an excellent tensile strength and durability. This gives the product a service life which is several times longer than the ordinary sponge. Suggested polishing revolving speed is between 1000-2000 rpm depending on the paint. Used with a polishing compound that has a low level of cut or aggressiveness. Second step in removing surface defects.
