

5mm Rubber Nut Insert 5pc

Rubber and metal expanding well nuts, with M5 thread, equivalent to OEM numbers 06131690027, 0009889625 & A0009889625. Used across MAN and Mercedes Benz light commercial vehicle ranges. These removable and reusable fasteners feature a rubber body, with a metal threaded insert, and can be fitted by hand without the use of a RivNut gun. They are designed to insulate against heavy vibrations (helping to reduce noise), electrical currents, and form a water-tight seal when installed.

Additional Information

- Dimensions 13mm long x 9.6mm diameter (for 9.5mm hole size).
- Equivalent to OEM 06131690027, 0009889625 & A0009889625.
- Used across MAN & Mercedes-Benz light commercial vehicle ranges.
- Isolates from both vibration & electricity. Also resists water ingress when installed.
- Pack of 5. Also available in Connect assorted rubber nut insert set 40pc (Part No. 32452).
