

## Wire-Lock Lead/Wire Seals 100pc

Consumable lead sealing leads and wires for use with Laser 9383 - Wire-lock seal Pliers. Suitable for creating a permanent, tamper-evident seal that prevents unauthorised access to devices such as HGV tachometers, electric and gas meters, luggage, water meters, fluid valves, and even VAG hybrid coolant caps.

### Additional Information

- Applications include: Tachometers, electric meters, gas meters, luggage, water meters, fluid valves & VW Group hybrid coolant caps.
- Simple to use: thread the wire through the lead seal, loop it around the unit to be secured, and back through the seal, then close the seal with sealing pliers such as Laser Part No. 9383.
- 100x lead seals & pre-cut steel wires.
- Removal only possible by cutting the sealing wire, indicating tampering has occurred.
- Can be used to attach warning tags & steering wheel covers, etc. to vehicle steering wheels etc.
